

CREATE!

Activity 1: Design a football strip

Getting started: Draw a template football strip for your design. Draw the front of your football strip on one side of a piece of paper and the back on the other side.

Hint: Your template should look a bit like this example picture

- 1 On the front, design your football strip. Be as creative as you like! What's your team name?
- 2 On the back, write down **5 words** to describe how football or sport makes you feel. Does your design represent how you feel about football or sport?
- 3 Show a carer, teacher or activity leader your football strip. Explain why you picked the design, colour and words.

You'll need:
Paper, pencils, coloured pencils or paints, any other materials you like!

Extra Time

Can you make a chant or rhyme using **all 5** of your descriptive words?

CREATE!

Activity 2: Build your own sports stadium

Getting started: Imagine you are the chairperson of a football club (could be real or fictional). It's your job to design and build a new stadium for your club.

You'll need:
Paper and pencils,
cardboard or plastic, any
other materials you like!

- 1 Design a football stadium for your team on paper. How can you make your stadium unusual and memorable? *Hint:* use the colours and designs from your football strip in activity 1 of this sheet as a starting point.
- 2 Now build your amazing stadium using materials you can find around the house. Make sure you check with an adult first.
- 3 Show and tell! Show your stadium (or a picture of it) to someone at home, a teacher or an out-of-school activity leader.

 **TOP TIP!**
Clean cardboard boxes, egg boxes and plastic bottles make great building materials!

Extra Time

Can you make some miniature figures and play a mini sporting event in your stadium?
